Learning Goal:

- Demonstrate an understanding of addition and subtraction of numbers with answers to 1000

Use your problem-solving steps:

Helen baked 435 chocolate chip cookies yesterday and 139 cookies this morning. How many cookies did Helen bake?

Pinky the Pig bought 36 apples while Danny the Duck bought 73 apples and 14 bananas. How many apples do they have altogether?

Dear Grade 3 Families,

This week we were able to wrap up some units before the winter break. We completed the addition portion of our math unit and will start with our subtraction lessons in the New Year.

In **Language Arts**, we have started story writing. We have talked about writing a beginning, middle and end. We also have gone back to add detail to events in our stories by describing them using our 5 senses. We got to talk read recipes and we were able to make rice Krispy squares.

In **Science**, we completed our hearing and sound unit with our test on Tuesday. We chose an animal and did a research page on animal hearing for the rest of the week. When we return, in January, we will be starting our "Testing Materials and designs" unit, which will then lead into our "Building" unit. Please send any recycled materials that can be used for building, in the New Year. For example: egg cartons, plastic containers/bottles, paper tubes, boxes, etc.).

In **Social**, we finished talking about Celebrations and Traditions in Peru, Tunisia, Ukraine and India. We compared some of these traditions to the variety of celebrations in Canada and talked about our own personal traditions.

We were able to finish up the week with some fun "minute to win it" games, hot chocolate & the "Polar Express," Carolling and the grade 6's set up Reindeer games for us to participate in on Friday.

Please enjoy the break and we will see you in the New Year!
