Dear Grade 3 Families,

In **Language Arts**, we have been talking about kindness. We have drawn and written about "What makes up our heart" and we've been focusing on main ideas when we are reading. We also continue to work on our word work that goes along with next week's spelling test.

In **Math**, this week we collected data on various topics and created bar graphs to go with the data we collected. We reviewed and had a quick data analysis quiz on Wednesday. On Thursday, we did some Valentine related math activities.

In **Science**, we started building. On Monday, we created napkin holders. We also had to make a plasticine animal that could stand and be able to explain how we made our animals stable. We will continue to build next week. Please send any recycled materials that can be used for building. For example: egg cartons, plastic containers/bottles, paper tubes, broken down boxes, etc.).

In **Social**, this week, we have learned about the different environments in Ukraine & India. We will move into talking about how we can negatively and positively change the environment around us. Then we will choose a country to create a brochure on.

On Thursday afternoon students got to participate in our **annual Valentine's Day carnival!** The grade 4-6 students set up and ran games for the students to win tokens so they could get prizes from the prize room. Thank-you to any volunteers who were able to come out and enjoy this afternoon with our students.
